RESOLUTION NO. 6-3-15

A RESOLUTION OF THE HENRY COUNTY, TENNESSEE BOARD OF COMMISSIONERS TO APPROVE SUPPORTING DEPLOYMENT OF ALTERNATIVE ELECTRICAL POWER GENERATION EQUIPMENT AT THE NEW JOHNSONVILLE FOSSIL-FUEL PLANT SITE AND URGING THE TENNESSEE VALLEY AUTHORITY TO COMMIT TO THE REPLACEMENT OF THE RETIRING COAL-POWERED GENERATORS THAT ARE CURRENTLY IN OPERATION

WHEREAS, consistent with publically announced plans, Tennessee Valley Authority (“TVA”) intends to completely retire all coal-burning based power generation at the New Johnsonville Plant Site (“Johnsonville”) by the end of the 2017 calendar year. The impact of the reality of and execution of that decision will impact the economic and psychological stability of the counties of the entire region through loss of this invaluable industrial anchor in the midst of our western Tennessee Valley; and

WHEREAS, many of the conditions that existed when TVA selected the site for deployment of its first coal-fired units in 1949 still exist today in abundance. Among those is that Johnsonville strategically sits along an unlimited amount of fresh water which can continue to be processed by one of the largest processing plants in the TVA system. There now exists a concentration of transmission facilities that are strategically situated along the electric transmission system grid. A ready, willing and educated workforce is well known to continue to be available. A TVA owned, twenty-eight inch, natural-gas pipeline was constructed to particularly serve this site with enough reserve capacity to fuel any version of multiple gas-fired turbines; and

WHEREAS, Johnsonville has a unique customer base with TVA committed to provide industrial steam to the adjacent E. I. DuPont resulting in an assured continuation of the largest production of paint-pigment in the World; and

WHEREAS, as a critical component of its public purpose TVA maintains a commitment to economic development and given that the region is made most attractive by the presence of reliable, accessible and inexhaustible supply of electrical power, the best and only hope of competing in the very competitive world of industrial recruitment is to retain a substantial presence of the industrial might of TVA in the area; and

WHEREAS, negative ramifications coming in the wake of the planned generator retirements include the loss of greater than two hundred local TVA jobs, as well as an estimated 750 additional collateral jobs, and the sure result of closing countless satellite industries which exist entirely due to the presence of TVA in this western Tennessee Valley region; and

WHEREAS, New Johnsonville was a town created with the birth of TVA and Humphreys County residents and its neighbors living in the tier of counties surrounding Johnsonville share the enormous pride of being a part of the TVA System and share the concerns with this Municipal Matriarch of the TVA family; *now, therefore*,

BE IT RESOLVED by the Board of County Commissioners, that we now present with appreciative hearts and reasoned minds a request that the Honorable Board Directors of the Tennessee Valley Authority give due consideration this our entreaty and take all possible action to insure that the New Johnsonville Plant Site is included in the inevitable expansion of the TVA fleet of alternative electrical power generation equipment that will come on line as coal-fired facilities are retired.
